Great Revolutionary Program for Nationwide Victory of Our Revolution and New Victory Of Cause of Socialism and Communism

—*Rodong Sinmun's Editorial*—

PYONGYANG, Nov. 5 (KCNA)—Today's Rodong Sinmun runs an editorial headlined "A Great Revolutionary Program for the Nationwide Victory of Our Revolution and a New Victory of the Cause of Socialism and Communism," warmly supporting and hailing the report on the work of the Central Committee of the Party made by Comrade Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea, at the 5th Congress of the Party.

The editorial says:

Upon receiving the historic report of the great Leader that spread far and wide from the high rostrum of the Congress amid stormy applause and cheers of the entire attendants, our Party members and people are aroused to overflowing emotion, joy and excitement and they are enthusiastically supporting and hailing the report to the Congress with boundlessly stirred-up elation.

In his report to the Party Congress, Comrade Kim Il Sung, the great Leader, made a brilliant review of the historic struggle of our Party and people for carrying out the programmatic tasks put forth by the 4th Congress of our Party and its Conference and the great successes made in it, and set forth militant tasks for further acceleration of socialist construction and for the nationwide victory of the Korean revolution.

The report also makes a proud review of the historic victory won by our Party and people under the outstanding leadership of the great Leader in converting our country into a socialist industrial state with an independent, modern industry, developed agriculture, efflorescing socialist national culture and an impregnable all-people defence system through their heroic struggle and selfless efforts, holding aloft the banner of Marxism-Leninism and the great revolutionary banner of *Juche* idea, and the brilliant victory and success in firmly establishing the unitary ideological system of *Juche* in the whole Party in a ceaseless struggle against the internal and external enemies and achieving an unshakable unity and cohesion of the Party ranks on this basis.

Also summed up proudly in the report is the great success of epochal advance made in the cause of the South Korean revolution and the unification of the fatherland under the rays of the great *Juche* idea of the Leader, and the brilliant activities and exploits of our Party in making active contribution to the anti-imperialist, anti-U.S. struggle and the promotion of the world revolution in the front ranks of the international revolutionary movement.

In the report, Comrade Kim Il Sung, an outstanding Marxist-Leninist and the great Leader of the revolution, indicated a bright path and spread a bright vista for a new, greater victory of our revolution and for accelerating with greater vigor the onward movement of our people to socialism and communism.

The report plainly indicates a clear path and lines of struggle for a new, vigorous advance of the revolutionary movement of the South Korean people fighting side by side with the people in the northern half on the one road of national unification and gives a lucid exposition of the steadfast stand and strategy of struggle of our Party for developing the anti-imperialist, anti-U.S. struggle to a new stage in Asia and on a world-wide scale and further expediting the international revolutionary movement.

The report which gives perfect theoretical and practical answers to the problems of principle newly raised by our era, the great era of struggle when all the exploited and oppressed peoples on the globe are turning out in the liberation struggle and revolutionary struggle and the grand historic era when imperialism is going to ruin and socialism and communism are triumphing on a world-wide scale and by today's revolutionary development, whose solution is urgently awaited by the building of socialism and communism, the report which provides an overall systematization and synthesis of the immortal revolutionary ideas of Comrade Kim Il Sung and his outstanding theories and lines the greatness of which has been testified through the practice of our revolution and the world revolution, is a great revolutionary program and encyclopedic, immortal Marxist-Leninist document which will shine forever in history.

As Comrade Kim Il Sung, the great Leader of the revolution, pointed out in his historic report, the nine years following the 4th Congress of our Party have been a fruitful period replete with revolutionary events of great historic significance in the onward movement of our people to socialism and communism.

This period has been a most glorious period in which our Party and people under the outstanding and seasoned leadership of Comrade Kim Il Sung, the great Leader, have opened up a new age of overall national prosperity and grandeur by effecting a new upswing and great leaping advance on all fronts of socialist construction boldly blazing an unfamiliar path to socialism and communism untrodden by anyone after the establishment of the socialist system, and made our country, which was trampled down by others and lost its color in the past, throw brilliant rays as "Chollima Korea" and "model country of socialism" envied by the world people.

Comrade Kim Il Sung, the respected and beloved Leader, taught us in the report:

"The greatest achievement made in socialist construction during the period under review is that our country has been converted into a socialist industrial state as a result of the splendid fulfilment of the historic task of socialist industrialization."

The conversion into a socialist industrial state is a great event of epochal significance in building a developed and prosperous socialist state and expediting the building of socialism and communism and a proud event which will brilliantly shine in the long history of our nation.

As Comrade Kim Il Sung, the great Leader, said, our Party and people carried out brilliantly in a short period of 14 years the difficult task for industrialization which has taken the capitalist countries usually over one whole century or even a few centuries, by struggling perseveringly, solving by themselves all the questions arising in the building of modern industry and the technical reconstruction of the national economy under the revolutionary banner of self-reliance.

Comrade Kim Il Sung, the respected and beloved Leader, declared in the report that our industrial production grew at a high rate of 19.1 per cent on an annual average during the whole period of industrialization in which we advanced getting over difficulties and today our country has reached the level of advanced industrial countries in the per capita output of major industrial products and surpassed them in some items.

Infinite are the pride of our people who have become a full-fledged member of the ranks of the advanced countries of the world by creating a new history of industrialization and doing away once and for all with the age-old economic and technical backwardness of the country, holding high the wise line put forth by the great Leader and the honour of our people who have laid a rock-firm foundation for firmly ensuring the political independence of the country in any adversity and achieving unification of the fatherland and the eternal prosperity of the nation.

The socialist economic management system has been established in an all-round way with the founding of the Taean work system and new agricultural guidance system, the system of unified planning and detailed planning newly set forth by the great Leader with originality, and education and science, literature and arts are further efflorescing and developing with each passing day.

In the report Comrade Kim Il Sung, the great Leader, reviewing the struggle of our Party to firmly build the revolutionary ranks and cement the political and ideological unity of the entire people in the period under review, convincingly substantiated the correctness and great vitality of the policy of the Party for this.

As the practical experiences show, the policy of combining the class struggle with the work to strengthen the unity and cohesion of the masses of the people, the principle of constantly raising the leading role of the working class and educating the peasantry and intelligentsia on the pattern of the working class, the principle of boldly trusting any people who want to follow the Party and actively educating and remoulding them, even though their origin, environments and social and political backgrounds are complicated, and the policy of combining the ideological education with practical activity and turning the struggle for revolutionization into the work of the masses themselves and other original principles and policies of our Party set forth by the Leader constitute a firm guarantee in pushing on the revolutionization and working-classization of the whole society and consolidating the political and ideological unity of the entire people.

With the successful implementation of these policies of the Party the traits of devotedly struggling for the Party and the Leader, for the collective and society have been brought to full play today among our working people and the whole society has turned completely into a big Red socialist family which has been firmly united politically and ideologically.

Our all-people, all-nation defence system has been consolidated still more, as firm as an impregnable fortress, on the basis of the firm political and ideological unity of the masses of the people rallied around the Leader and the powerful independent national economy.

Our People's Army has become a one-beats-a-hundred army of cadres firmly armed with the great revolutionary ideas of the Leader, the invincible revolutionary armed forces fully equipped with powerful means of attack and defence, all the people are carrying arms with themselves, and every nook and corner of the country has been fortified, and there have been established firm bases of an independent national defence industry capable of meeting the material demands of the war in any worst situation created by the U.S. imperialists' aggression.

As Comrade Kim Il Sung, the great Leader, pointed out in the report, the most precious success made in the field of Party upbuilding in the period under review is that the unitary ideological system of *Juche* has been more thoroughly established within the Party and the whole Party has been completely united and rallied on this basis.

The realization of the unbreakable unity and cohesion of the whole Party based on the great revolutionary idea, the Marxist-Leninist idea of *Juche*, of Comrade Kim Il Sung, the founder and Leader of our Party—this is irreplaceable, priceless gain attained by our Party and people.

Comrade Kim Il Sung, the respected and beloved Leader, said in the report:

"The establishment of Juche in ideology is a great victory in the realm of the ideological revolution that has freed our people from the shackles of obsolete ideas detrimental to their consciousness of national independence."

The great victories and successes achieved by our Party and people in the period under review in the socialist construction of the country and the strengthening and development of the Party along the road indicated by the 4th Congress of the Party and the Party Conference eloquently demonstrate the correctness and great vitality of the brilliant ideas, theories and policies in which Comrade Kim Il Sung, the great Leader, newly indicated in an original manner the road toward socialism and communism after the establishment of the socialist system and brilliantly show his outstanding theoretical and practical achievements which have contributed to comprehensively developing and perfecting the scientific theory of communism and carrying out the historic cause of socialism and communism, the editorial emphasizes and goes on:

Comrade Kim Il Sung, the respected and beloved Leader, put forth the line on capturing the material fortress and the ideological fortress of communism to win the complete victory of socialism and set forth the militant tasks before the fields of economy, culture, ideology, national defence and the people's life.

Comrade Kim Il Sung, the respected and beloved Leader, taught as follows:

"The basic task of the Six-Year Plan in the field of socialist economic construction is to further cement the material and technical foundations of socialism and free the working people from arduous labour in all fields of the national economy, by consolidating and carrying forward the successes gained in industrialization and advancing the technical revolution onto a new, higher plane."

The new Six-Year prospective plan of economic construction unrolled by the Leader indicates the clear-cut path of building our industry into an independent up-to-date industry whose departmental composition is further perfected, which develops relying entirely upon our raw materials and whose independence is firmly ensured, on the foundation of the successes gained in industrialization and of giving full play to its power and the correct path of making constant technical progress in all fields of the national economy to more quickly develop the productive forces of the country as a whole, free all the working people from arduous labour and evenly improve the standards of their life.

In the report Comrade Kim Il Sung, the respected and beloved Leader, mapped out a new grandiose plan of economic construction and presented the three major tasks of the technical revolution for its implementation.

Comrade Kim Il Sung, the respected and beloved Leader, taught as follows in the report:

"We should unfold an extensive technical innovation movement in industry and agriculture and all other branches of the national economy to narrow down the distinctions between heavy and light labour and between agricultural and industrial work to a considerable extent and free the women from the heavy burdens of household chores. These are precisely the three major tasks of the technical revolution we should fulfil in a few years ahead."

The looks of our industry and our agriculture will change once again beyond recognition with the elimination of all arduous labour and the extensive introduction of comprehensive mechanization, semi-automation and automation and all our towns and rural villages and all our homes will become more bountiful and cultured with the building of new houses for hundreds of thousands of households every year, the introduction of water and bus service and the construction of hospitals and children's wards in all parts including remote mountain areas and the freeing of women from the burdens of household chores along the bright path of the three major tasks of the technical revolution and along the path of the balanced development of the people's life, indicated by the great Leader. This will be of tremendous significance in eliminating the distinctions in the labour condition between the working class and the peasantry and the distinctions between town and country.

In the report Comrade Kim Il Sung, the great Leader, gave a new comprehensive exposition of the contents and original line of socialist cultural construction along with socialist economic construction and clearly put forth the tasks for their implementation.

The revolutionary line on powerfully fighting against imperialist cultural infiltration and, at the same time, resolutely fighting against the tendency of restorationism in socialist national cultural construction at present, put forth by Comrade Kim Il Sung, the respected and beloved Leader, is a line newly elucidated by him. This line is the most correct one based on a scientific analysis of the aggressive policy of the imperialists who use cultural infiltration as an important means of neo-colonialism and the anti-Marxist, reactionary nature and

harm of restorationism and a true Marxist-Leninist road for building a genuinely party, popular and revolutionary socialist culture making a great contribution to revolution and construction and conforming to the requirements of the times and the class principles.

As the great Leader taught, under the present circumstances where an acute class struggle is waged in the ideological and cultural fields and cultural aggression by imperialism, U.S. imperialism in particular, is intensified, socialist culture can be built and soundly developed only through the thoroughgoing struggle against all trends of reactionary culture.

The editorial continues:

We should train a large contingent of more than one million intellectuals in the near future, improve the work of press-circulation and radio-propaganda work, broaden the telecasting network throughout the country, elevate the general technical and cultural standards of the working people, further develop our *Juche*-oriented sciences and bring the revolutionary culture and arts into full bloom.

The editorial goes on:

In his report, Comrade Kim Il Sung, the great Leader of the revolution and outstanding Marxist-Leninist, on the basis of a deep-going analysis of the period of transition from capitalism to socialism and the law of socialist and communist construction, comprehensively systematized and formulated the scientific ideas and lines on the ideological revolution and the revolutionization and working-classization of the whole society and set forth the historical tasks for further deepening and developing the work of revolutionizing and working-classizing the whole society by pushing the ideological revolution ahead of other work.

In the report Comrade Kim Il Sung, the respected and beloved Leader, taught us:

"To realize the working-classization of the whole society while strenuously carrying on the revolutionization of all the working people by giving priority to the ideological revolution is a weighty task that must be fulfilled without fail in the period of transition from capitalism to socialism."

As the respected and beloved Leader expounded, only by giving priority to the ideological revolution and working-classizing and revolutionizing all the working people can we accomplish the historical task of the period of transition, build a classless society, a completely triumphant socialist society and, furthermore, successfully scale the ideological fortress of communism.

The scientific line and ways for the revolutionization and working-classization of the whole society put forth by the Leader with his originality are a living theory whose correctness has been confirmed and further enriched through practice and a programmatic guiding principle which should be firmly adhered to in working-classizing the whole society, revolutionizing all the working people and capturing the ideological fortress of communism.

In his report Comrade Kim Il Sung, the great Leader of the revolution and genius in military strategy, advanced, with a sharp analysis of and deep penetration into the prevailing situation, the militant tasks for pushing ahead with socialist construction to the utmost and in parallel with the further augmenting defence capabilities of the country.

Comrade Kim Il Sung, the great Leader, set forth the line of stepping up, while arming the entire people more fully, war preparations by the whole Party and the entire people in face of the U.S. imperialists' ever intensified manoeuvres of aggression and war provocation, perfecting the art of war suited to the actual conditions of the country and speeding up the modernization of the army on the basis of giving full play to the political and ideological superiority of the People's Army and thus making firmer political and military preparations to crush any enemy superior in military technique. This line is an outstanding line thoroughly embodying the great idea of *Juche* and the principle of self-defence in defence upbuilding, creatively developing the Marxist-Leninist theory on the upbuilding of revolutionary armed forces and correctly reflecting the characteristics and demands of modern warfare and a reliable guarantee for consolidating the defence power of the country into an invincible one, taking the initiative under any circumstances and crushing the invading enemy.

In his report made at the Congress of the Party Comrade Kim Il Sung, the great Leader of the 40 million Korean people, newly analyzed and summed up the development of the situation in South Korea and the experiences and lessons of the revolutionary movement there and gave a comprehensive and profound exposition of the strategic and tactical line of the South Korean revolution and definitely clarified the invariable stand of our Party for national unification.

Reviewing and analyzing in an all-round way the historical path of the South Korean revolutionary movement which had advanced, pulling through difficult trials, Comrade Kim Il Sung, the great Leader, expounded the precious revolutionary lesson that there can be no peaceful transition in the struggle for power, the mass movement alone can not win victory in revolution, in order to win victory in revolution there should be the leadership of a revolutionary party rallying the revolutionary forces into one and preparations should be made to counter the counter-revolutionary violence of the enemy with revolutionary violence while actively waging a mass struggle. This is a valuable revolutionary truth which the South Korean revolutionary movement, which has traversed the road of the bloody struggle repeating bitter setbacks several times, should take as the firm guiding compass for the future development and final victory.

In his report Comrade Kim Il Sung, the brilliant Leader of the revolution, analysed the colonial semi-feudal character and class relation of the South Korean society and the class and national antagonisms between the U.S. imperialists and their stooges on the one hand and the South Korean people on the other, and scientifically reclarified the characteristics and tasks of the South Korean revolution, the editorial says, and continues:

Counter-revolution can be successfully crushed and victory of the revolution be firmly achieved when a powerful political army is solidly built up and the revolutionary forces are constantly expanded through an active mass struggle, while correctly combining various forms of struggle such as political struggle, economic struggle, legal and semi-legal struggle and illegal struggle and violent struggle and non-violent struggle under the slogan of the struggle against the colonial rule of U.S. imperialism and the fascist tyranny of the Pak Jung Hi puppet clique, its lackey, and for the democratization of society in South Korea along the line indicated by the great Leader.

As Comrade Kim Il Sung, the great Leader of the 40 million Korean people, reclarified in the report, the independent peaceful unification of the country is utterly unthinkable so long as the U.S. imperialist aggression army and the present puppets are left alone in South Korea. The road of accomplishing the cause of national unification lies only in chasing out the U.S. imperialist aggressors, the basic obstacle to the unification of our fatherland, from South Korea and liquidating their colonial rule, overthrowing the present military fascist dictatorship and winning the victory of the revolution.

When the people's democratic revolution emerges victorious and a true people's regime is established in South Korea, the unification of our fatherland will be smoothly attained by the united efforts of the socialist forces in the northern half of the Republic and the patriotic forces in South Korea.

In the report the respected and beloved Leader Comrade Kim Il Sung, the great Marxist-Leninist of our times and one of the outstanding leaders of the international communist movement and working-class movement, reviewed the successes registered by our Party in the past period in the field of international relations and made a profound analysis of the international circumstances of our revolution and the development of the international situation and, on this basis, clarified our Party's immovable stand and correct line of struggle for strengthening the international solidarity of our revolution and developing the anti-imperialist struggle, the anti-U.S. struggle in Asia and throughout the world under the present situation.

In the report Comrade Kim Il Sung, the great Leader, presented an original strategic line on strengthening and developing the militant solidarity of the revolutionary peoples of Asia and their anti-U.S. joint struggle with his deep insight into the Asian strategy of U.S. imperialism in particular, the serious situation created in this region owing to its aggression and the grave influence it is exerting on the general international situation and the position and role of the revolutionary struggle of the Asian peoples in the world revolution.

In his report Comrade Kim Il Sung, the respected and beloved Leader, taught as follows:

"In order to thwart the U.S. imperialist aggression in Asia, it is of importance to cement the fighting solidarity of the peoples of the revolutionary Asian countries in particular."

The strategic line of Comrade Kim Il Sung on strengthening the anti-U.S. united front and militant solidarity of the peoples of the revolutionary countries of Asia is a wise line reflecting the common position of these countries which are all subjected today to the U.S. imperialist aggression, the historical fighting experience and tradition of waging a joint struggle with united strength against imperialism to win victory and the matured demand of the development of the revolution and an offensive strategic line for thwarting and frustrating the vicious Asian strategy and the general global strategy of U.S. imperialism, defending peace and security in Asia and powerfully developing the anti-imperialist revolutionary struggle of the world people by breaking in Asia the main spearhead of U.S. imperialism for world aggression.

When the peoples of the revolutionary countries of Asia, which has become the fiercest battle front against imperialism, the main arena of the anti-imperialist revolutionary struggle today, strengthen their militant solidarity and wage a powerful anti-U.S. joint struggle, it will become possible not only to successfully repulse the Asian aggression of U.S. imperialism but to strengthen the world revolutionary forces and dynamically develop the anti-imperialist, anti-U.S. struggle of the world people.

In the report Comrade Kim Il Sung, the respected and beloved Leader, on the basis of a correct analysis of the Asian strategy of U.S. imperialism at present, the correlation between the U.S. and Japan and the ever more unscrupulous aggressive manoeuvrings of the Japanese militarists, reclarified our Party's stand and line on struggling against the revival of Japanese militarism while fighting against U.S. imperialism.

The socialist countries and all the peace-loving people of the world should clearly see the danger of Japanese militarism which has been revived under the wing of U.S. imperialism and is becoming ever more undisguised in its ambition for overseas aggression, and wage a resolute struggle against Japanese militarism while fighting against U.S. imperialism. Only by so doing is it possible to baffle the aggressive ambition of Japanese militarism and successfully smash the U.S. imperialist policy of Asian aggression.

These strategic lines of the anti-imperialist struggle, put forth by Comrade Kim Il Sung, the great Leader of the revolution, the lines indicating the correct road for successfully fighting against the imperialists headed by the U.S. imperialists and for smashing their policy of aggression and war and expediting the victory of the world revolution, will inspire the world revolutionary people and become a propelling force in further developing the anti-imperialist, anti-U.S. struggle on an international scale.

In his report at the Party Congress Comrade Kim Il Sung, the great Leader of our Party and people, set forth programmatic tasks for continuously consolidating and developing our Party, the militant General Staff of the Korean revolution, organizationally and ideologically and further heightening its militancy and leading function in conformity with the demand of our revolution and construction which have entered the stage of new development, the editorial notes, and goes on:

In the report the Leader gave comprehensive answers to the important questions of principle arising in the Party building and Party work such as the organizational and ideological consolidation of the Party ranks, Party organizational work and ideological work, the leadership over the masses and the leadership of the Party over revolution and construction, thereby creatively developing the Marxist-Leninist theory of Party upbuilding and illumining the clear-cut road for the further deepening and development of our Party work.

Comrade Kim Il Sung, the respected and beloved Leader, taught as follows in the report:

"We should continue to deepen and develop Party work, firmly carrying on, as our general task, the work of establishing the unitary ideological system more thoroughly in the Party, with the Marxist-Leninist ideology, the Juche idea of our Party, as an unshakable guiding ideology, and of strengthening, on this basis, the identity of ideology and will of the Party ranks."

To firmly establish the unitary ideological system in the whole Party and consolidate the unity and cohesion of the Party ranks on this basis is the fundamental principle of the Marxist-Leninist Party upbuilding and the decisive guarantee for all victories in revolution and construction. This is the valuable conclusion drawn from the summing up of the experiences of our revolutionary struggle waged for a long time under the guidance of the Leader.

After referring to a number of questions arising in the work for improving and strengthening Party work, the editorial says:

Comrade Kim Il Sung, the great Leader, put it as a particularly important task in the Party ideological work at present to carry on ideological education against revisionism.

Comrade Kim Il Sung, the great Leader of the revolution, pointed out that today when the internal and external situations of our country are complicated and the revolutionary struggle and constructive work are developing still more in depth, reality urgently demands the further heightening of the leading role of the Party in all fields of socialist economic construction and defence upbuilding, and set forth concrete tasks for this.

The editorial says in conclusion:

The report made by Comrade Kim Il Sung, the great Leader, at the historic 5th Congress of the Party calls the whole Party and the entire people to the grandiose struggle for the victory of our revolution and for a new greater victory in the cause of socialism and communism.

Let us all unite closely around Comrade Kim Il Sung, the great Leader of the 40 million Korean people, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist movement and working-class movement, and vigorously march forward toward the bright future of socialism and communism, holding aloft the great revolutionary banner of the *Juche* idea, the ever-victorious banner!

Seoul Students Demand Better Living-Working Conditions for Workers

More than 400 students of Seoul University staged a demonstration on Nov. 20 in Seoul, denouncing the mediaeval oppression and exploitation imposed upon the South Korean workers under the colonial misrule of the U.S. imperialists and demanding better living and working conditions for the workers, according to a report from Seoul.

This just struggle of the students of Seoul University was an expression of students' solidarity with the Seoul clothing workers who held a demonstration recently in demand of wage hike and better working conditions.

According to the report, students of the colleges under Seoul University gathered on the campus of the law college of the university in the teeth of the enemy's suppression, held a memorial service for a worker who was killed on Nov. 13 in the struggle of the clothing workers against the misrule of the U.S. imperialists and their mangy dogs, traitorous Pak Jung Hi puppet clique, and made public a declaration and started a demonstration denouncing the enemy's criminal act of harshly plundering and oppressing the workers and even killing them.

With the active support and encouragement of Seoul citizens the students waged a tit-for-tat struggle against over 50 puppet mobile police bandits.

Upwards of 30 students of the literary and science college of the university and more than 30 students of Rihwa Women's University who were on their way to the law college of Seoul University to attend the memorial service before this fight broke out also waged a fierce struggle against puppet mobile police bandits who tried to block their way.

The Pak Jung Hi fascist ruffians, the dirty running dogs of the U.S. imperialists, who are hellbent on treacherous acts committed thrice-cursed atrocities that day, too, injuring over 20 students and arresting more than 30 students.

According to another report, the students of Koryo and Yonse universities in Seoul also held memorial services for the murdered worker respectively on their campuses, expressing solidarity with the workers in their struggle for better living and working conditions.

308th MAC Meet Held

New U.S. Imperialist War Provocations In DMZ Exposed

KAESONG, Nov. 24 (KCNA)—The 308th Meeting of the Military Armistice Commission is being held in Panmunjom at the proposal of our side.

At the meeting our side lodged a strong protest with the enemy side against the U.S. imperialist aggressors' recent grave armed provocations against the northern half of the Republic in the area along the Military Demarcation Line, and is calling it to account for this.

According to the statement made by Maj. Gen. Han Yong Ok, senior member of our side, at the meeting, the U.S. imperialist aggressors perpetrated some time ago a malicious armed provocation without precedent since the ceasefire against our side at the estuary of the River Han-gang in the western section of the front and, in the wake of this, they have been incessantly committing hostile provocative acts against our side in the central section of the front. Around 16 hours 35 minutes Nov. 19, they perpetrated a grave armed provocation by infiltrating tens of armed bandits into the Demilitarized Zone south of Konchon-ri in the central section of the front and firing from heavy weapons thousands of rounds of ammunitions at a post of our side in this area.

Earlier, from seven hours to seven hours 55 minutes Nov. 1, the U.S. imperialist aggressors fired from the heavy weapons thousands of rounds of ammunitions into the area near our side in the DMZ south of Chukdong in the central section of the front.

At around 16 hours 50 minutes Oct. 20, the U.S. imperialist aggressors committed the premeditated criminal act of firing all at once at the same hour from automatic weapons hundreds of bullets into the portion of our side in the Demilitarized Zone from nine different points in the Tapgol area in the central section of the front.

These vicious armed provocations of the U.S. imperialist aggressors are a flagrant violation of the armistice agreement and another naked criminal act against the northern half of the Republic.

At the meeting our side said that one could not help directing a serious attention to the fact that the U.S. imperialists' recent grave armed provocations in the central section of the front synchronized with the large-scale war exercises they are staging almost every day in all parts of South Korea against the northern half of the Republic while extensively bringing more aggressor forces into South Korea.

All the facts clearly show how desperately the U.S. imperialist aggressors are trying to lead the situation in Korea to the brink of war while paying a lip-service to "peace," the senior member of our side stated.

He then demanded the enemy side:

Firstly, take practical measures for stopping the armed provocations which it is committing frantically almost every day to ignite a new war of aggression in Korea, destroying the armistice;

Secondly, sternly punish in accordance with the provisions of the armistice agreement the prime movers who organised and commanded the recent hideous criminal acts against our side and all the criminals involved in them;

Thirdly, guarantee against the perpetration of such armed provocations in the future.

At the meeting, our side is calling the enemy side to account for many other acts of provocation committed by the U.S. imperialist aggressors.

While committing armed provocations against our side almost every day, the U.S. imperialist aggressors continue committing in these days the criminal acts of illegally bringing various heavy weapons in the DMZ in gross violation of the armistice agreement.

The U.S. imperialist aggressors on Nov. 13 illegally brought two 57-mm recoilless guns into the DMZ south of MDL marker No. 0465 and the next day, that is on Nov. 14, illegally brought three 57-mm recoilless guns to their different posts in the DMZ in the western and central sections of the front.

Besides, the U.S. imperialist aggressors committed the criminal acts of illegally bringing such heavy weapons as 57-mm recoilless guns and 81-mm mortars into the DMZ on several occasions in the period from Oct. 23 to Nov. 22.

Maj. Gen. Han Yong Ok, senior member of our side, said all the facts were vividly indicative of the desperate moves of the U.S. imperialist aggressors for igniting a new war of aggression in Korea.

He strongly demanded that the enemy side take measures for discontinuing all the criminal acts of crude violation of the armistice agreement, punishing the criminals involved in them, fulfilling the provisions of the armistice agreement and maintaining the armistice.

A Leat-bent U.S. imperialist gun continues to fire at the North.

S. Korean Students' Intensified Solidarity with Workers

Rodong Sinmun's Commentary

Seoul students waged the powerful demonstration struggle on Nov. 20 in solidarity with the workers in their struggle for the right to existence and better living and working conditions.

Nov. 22 Rodong Sinmun commented:

This clearly shows that the struggle of the South Korean students is gradually becoming purposeful and conscious, the organisational links between the students and the workers are growing still closer and the struggle of the South Korean students is developing on to a new stage.

According to a report, more than 400 students of Seoul University held on their campus a memorial service on Nov. 13 for a worker who was killed in Seoul in the struggle for the right to existence, and staged a demonstration, calling for "better working conditions" for the workers.

On the same day, over 300 students of Koryo University held a memorial service and a "meeting for the declaration of human rights" and upwards of 100 students of Yonse University also held a meeting and adopted a four-point resolution demanding a guarantee for the living of workers.

In the historic report to the 5th Congress of the Party Comrade Kim Il Sung, the great Leader of the 40 million Korean people, taught as follows:

"It is important to organically link up the political struggle against U.S. imperialist colonial rule and military fascist dictatorship and for the attainment of the democratic rights including the freedoms of speech, the press, assembly, association and demonstration with the economic struggle of the toiling masses for the right to existence, and make the struggle of the student youths for political liberty more purposeful and conscious and closely combine their democratic movement with the political struggle of the workers and peasants."

The courageous struggle of the South Korean students expressing firm solidarity with the Seoul workers in their mass struggle for the right to existence is a manifestation of the unanimous will of the South Korean students who are opposing the U.S. imperialist colonial rule and military fascist dictatorship, closely linking their destiny with that of the workers and further strengthening the organisational bonds with them.

The South Korean students should closely combine their democratic movement with the political struggle of the workers and peasants and strengthen the organisational bonds with them in order to win the genuine right to learning and realize campus democracy.

The struggle of the South Korean students can emerge victorious only when it is combined with the just struggle of the workers and peasants.

Therefore, the South Korean students are waging a staunch struggle, drawing a lesson from the valuable truth they gained through the struggle.

The Pak Jung Hi puppet clique, the faithful stooge of U.S. imperialism, the commentary said, tried to halt, this time, too, the struggle of the students with bayonets by mobilising puppet police bandits and committed bestial atrocities, arresting and detaining scores of students and closing down schools.

The U.S. imperialists and their stooge, the Pak Jung Hi puppet clique, are working round the clock to wreck the unity of the workers, peasants and the students. This is nothing but the last kick of the doomed.

The South Korean students should continue to actively support the powerful massive struggle of the workers, peasants and people of other strata in all parts of South Korea and wage a vigorous joint struggle, expressing firmer solidarity with their struggle.

Only by so doing, can the South Korean students win the right to learning and campus freedom and achieve genuine freedom and liberation together with the workers and peasants.

Rodong Sinmun Demands Release of Angela Davis

PYONGYANG, Nov. 20 (KCNA)—Rodong Sinmun, commenting on the reactionary U.S. ruling circles' illegal detention and persecution of Angela Davis, member of the U.S. Communist Party and energetic woman activist of the movement for defending the civil rights of the Negroes, says:

This is a bestial fascist outrage wantonly trampling underfoot democracy and elementary human rights, a vicious attack on the U.S. Communist Party and all other U.S. progressive forces and a challenge to the progressive people the world over.

Noting that "conspiracy of murder" charged against Angela Davis is a sheer fabrication, the commentary says:

It is a habitual tactics of the U.S.imperialists to suppress progressive figures and democratic forces opposing their policies of aggression and war on this or that faked-up charge.

The arrest of Angela Davis is entirely illegal and shows with added clarity that the U.S. imperialists tightly cornered at home and abroad are resorting to more vicious fascist suppression.

Comrade Kim Il Sung, an outstanding Marxist-Leninist and the great Leader of the revolution, taught as follows:

"Though the imperialists headed by U.S. imperialism are running amuck in an attempt to check the surging liberation struggle of the peoples it is nothing but the death-bed tremor of those who are condemned to destruction. The more frenziedly the U.S. imperialists act, the more difficult their position becomes."

The more the U.S. imperialists intensify the fascist repression, the greater the discontent and resistance of the U.S. people will become and the deeper the scoundrels will land themselves in total isolation.

The U.S. imperialists headed by Nixon should stop the bestial suppression of the U.S. Communist Party and other U.S. progressive forces.

The U.S. imperialist fascist hangmen must release at once Angela Davis whom they illegally arrested and detained for no crime, the commentary says in conclusion.

DPRK Foreign Ministry Denounces U.S. Imperialists-Rammed "Resolution" as Aimed to Ban DPRK Participation In U.N. Debate on Korea

PYONGYANG, Nov. 3 (KCNA)—The Foreign Ministry of the Democratic People's Republic of Korea issued a statement today in connection with the fact that on Oct. 30 last the U.S. imperialists forcibly passed through the Political Committee of the 25th session of the United Nations General Assembly, as usual, a "resolution" on the so-called "conditional invitation" designed to prevent the representative of the Democratic People's Republic of Korea from participating in the discussion of the question on Korea.

Follows the full text of the statement:

On Oct. 30 last the U.S. imperialists forcibly passed through the Political Committee of the 25th session of the United Nations General Assembly, as usual, a "resolution" on the so-called "conditional invitation" designed to prevent the representative of the Democratic People's Republic of Korea from participating in the discussion of the question on Korea.

This is an act of infringement upon and insult to the sovereignty of the Korean people and of flagrant violation of the principles of the United Nations Charter.

The Government of the Democratic People's Republic of Korea resolutely condemns and rejects this illegal "resolution" framed up by the U.S. imperialists.

It goes without saying that as long as the question on Korea is discussed at the United Nations, the representative of the Democratic People's Republic of Korea, the party directly concerned, should participate in it.

At the current Political Committee of the U.N. General Assembly, the socialist countries and many Asian and African countries rejected the "resolution" on the so-called "conditional invitation" put forth by the U.S. imperialists and strongly maintained that the representative of the Democratic People's Republic of Korea should be invited unconditionally to the discussion of the question on Korea. This is completely just.

To attach any sort of "condition" in inviting the party concerned to the discussion of its question at the United Nations is quite out of the question and is an illegal and shameful practice running counter to the United Nations Charter.

Moreover, the so-called "conditional invitation" raved about by the U.S. imperialists implies that the Government of the Democratic People's Republic of Korea should accept in advance their justification by United Nations "decisions" of the manoeuvres of the U.S. imperialist aggression army to occupy South Korea permanently, convert it into a colony and military base and use it as a stepping-stone to provoke a new war with a view to invading the whole of Korea.

This is precisely a burglarious demand laying fully bare the black-hearted ambition of the aggressors.

The U.S. imperialists continuously force the United Nations to attach such a criminal "condition" in an attempt to bar the representative of the Democratic People's Republic of Korea, the sole state of the Korean nation representing the genuine national interests and will of the entire Korean people, from participating in the discussion of the question on Korea at the U.N. and hinder the representatives of various countries from hearing the true voice of the Korean people so as to prevent the manoeuvrings of aggression and war perpetrated by U.S. imperialism in Korea from being exposed.

By so doing the U.S. imperialists are knavishly manoeuvring to impose once again upon the current session of the U.N. General Assembly a "decision" designed to justify the continual occupation of South Korea by the U.S. imperialist aggression army under the U.N. flag and the new war provocation manoeuvrings they are frantically committing against the Korean people.

As the Government of the Democratic People's Republic of Korea has already repeatedly stated, no matter what "decision" the U.S. imperialists may force the United Nations to adopt without the participation and consent of the genuine representative of the Korean people and against the interests of the Korean people, it is of no use at all and entirely null and void.

If the United Nations really wants to act in conformity with principles and objectives of its Charter it must categorically reject the manoeuvrings of the U.S. imperialists who are using the United Nations as a tool in carrying out their aggressive policy against Korea and take measures without delay for the withdrawal of the U.S. imperialist aggression army occupying South Korea under the signboard of the "U.N. force" and the dissolution of the "United Nations Commission for the Unification and Rehabilitation of Korea," which is the U.S. imperialist instrument of aggression.

DPRK Foreign Ministry Flays Portuguese Colonialists' Invasion of Guinea

PYONGYANG, Nov. 25 (KCNA)—The Ministry of Foreign Affairs of the Democratic People's Republic of Korea issued on Nov. 24 a statement denouncing the Portuguese colonialists for starting an open armed invasion of the Republic of Guinea at the direct instigation of the U.S. imperialists.

The statement reads:

The Portuguese colonialists who had been incessantly perpetrating acts of aggression, sabotage and subversion against the Republic of Guinea at the direct instigation of the U.S. imperialists, started an open armed invasion of the Republic of Guinea at dawn Nov. 22, 1970.

The Portuguese colonialists landed that day in Conakry, the capital of the Republic of Guinea, a large number of aggressor troops consisting of European and African mercenaries to have them attack various areas.

This shameless act of aggression of the Portuguese colonialists is an intolerable, crude encroachment on the dignity and sovereignty of the Republic of Guinea and an open challenge to peace in Africa and the rest of the world.

President Ahmed Sekou Toure of the Republic of Guinea sternly denounced the Portuguese colonialists' act of aggression and appealed to the world people to express active support to and solidarity with the Guincan people in their just struggle against the aggressors.

The Government of the Democratic People's Republic of Korea and the entire Korean people pungently denounce with deep resentment the Portuguese colonialists' brigandish act of aggression against the Guinean people and strongly hold that the aggressors must take their blood-stained hands off Guinea without delay.

The direct aggressive act of the Portuguese colonialists against Guinea is a link in the whole chains of the aggressive schemes premeditated by the U.S. imperialists hand in glove with the imperialist and colonialist forces with their colonial concessions in Africa for depriving the new-born independent countries in Africa of their sovereignty, putting again the neo-colonial noose around the necks of these countries and suppressing the struggle of the African peoples for freedom and liberation.

It is crystal clear that the Portuguese colonialists who have lived out their days would have not dared to perpetrate the sanguinary acts of suppression against the African people, had it not been for the assistance and encouragement of the U.S. imperialists.

The imperialists headed by the U.S. imperialists are making a desperate attempt to restore their lost old position in Africa and continue to retain their colonial rule there.

With no amount of provocations or acts of aggression, however, can the imperialists and the colonialists block the road ahead of the Guinean people and the rest of the African peoples who are courageously advancing under the banner of anti-imperialism and independence.

The intensified acts of aggression and war of the imperialists and the colonialists only land themselves in worse straits and bring them nearer to their graves.

The reckless act of military aggression of the Portuguese colonialists has run up against a stauncher counter-blow from the Guinean people and touched off a new tide of indignation among the peace-loving people in Africa and the whole world.

The Government of the Democratic People's Republic of Korea and the entire Korean people will actively support and assist with might and main the just struggle of the Government and people of the Republic of Guinea against the Portuguese colonialists, a stooge of the U.S. imperialists, and their mercenaries and will stand firm on the side of the friendly Guinean people till they completely wipe out the aggressors and win final victory.

The aggressors should desist from running riot and quit Guinea at once, facing squarely the reality today.

If the U.S. imperialists and their stooge, the Portuguese colonialists, in defiance of the stern warning of the world people, continue to expand the act of aggression against the Guinean people, they will encounter greater resistance of the revolutionary peoples and suffer a more miserable destruction.

DPRK Foreign Ministry Blasts U.S. Imperialists' Barbarous Bombing of DR of Vietnam

PYONGYANG, Nov. 24 (KCNA)—The Ministry of Foreign Affairs of the Democratic People's Republic of Korea issued on Nov. 23 a statement supporting the statement of the Ministry of Foreign Affairs of the Democratic Republic of Vietnam dated Nov. 21 sternly denouncing the U.S. imperialists' barbarous bombing of the Democratic Republic of Vietnam and the U.S. imperialist aggressors' new criminal act.

The statement reads:

The U.S. imperialists are becoming more vicious with each passing day in their war acts against the Democratic Republic of Vietnam.

On Nov. 21, the U.S. imperialist air pirates intruded into the air space of the Democratic Republic of Vietnam in many flights and indiscriminately bombed populated areas in Hai Phong, Quang Ninh, Ha Tay and Hoa Binh provinces, causing heavy civilian casualties, and barbarously fired rockets even on the periphery of Hanoi, the capital. On the same day, the U.S. imperialist aggressors committed barbaric air strikes on populated areas in Quang Binh and Ha Tinh provinces.

This barbarous bombing of the Democratic Republic of Vietnam by the U.S. imperialists was a grave act of aggression high-handedly trampling underfoot the sovereignty and security of the Vietnamese people and another intolerable challenge to the peace-loving people of Asia and the rest of the world demanding an end to the war of aggression in Vietnam.

The Government of the Democratic People's Republic of Korea and the Korean people pungently denounce the U.S. imperialists' barbaric bombing of the Democratic Republic of Vietnam and fully support the statement of the Ministry of Foreign Affairs of the Democratic Republic of Vietnam dated Nov. 21 denouncing the U.S. imperialist aggressors' new criminal act.

This barbaric bombing of the Democratic Republic of Vietnam by the U.S. imperialists once again brings into salient relief their aggressive and beastly nature.

Even after their declaration of he "unconditional suspension" of bombing raids on the Democratic Republic of Vietnam, the U.S. imperialists have continued the bombing and have been engaged in incessant manoeuvres to spread the flames of the war of aggression in Vietnam behind the smokescreen of "peace."

When their reconnaissance plane was brought down by the defensive measure of the Vietnamese people a few days ago while perpetrating espionage acts after intruding into the air space of the Democratic Republic of Vietnam, the U.S. imperialists, taking it as a pretext, openly declared that they would take "an appropriate action in response" and "attack again" the Democratic Republic of Vietnam.

This was a vivid example of the worn-out, robber-like method of the U.S. imperialists who commit a provocation first and then perpetrate aggression finding a subterfuge in it.

All the facts furnish clear proof that the barbarous air strikes of the U.S. imperialists on the Democratic Republic of Vietnam are a link in the whole chains of their premeditated, heinous machinations intended to further intensify the criminal war of aggression in Vietnam and other parts of Indochina and the so-called "peace proposal" on the Indochinese question advertised by Nixon, the war boss of U.S. imperialism, is no more than an artifice for concealing such criminal intrigues.

With no desperate attempt, however, can the U.S. imperialists attain their aggressive aim or ever bar the just struggle of the Vietnamese people and other Indochinese peoples who have risen up as one man in the war of resistance against U.S. aggression and for national salvation.

The heroic Vietnam People's Army and people, as always, promptly answered the intrusion of the U.S. imperialist air pirates with a retaliatory blow and achieved shining battle results, downing six aircraft of the U.S. imperialist aggressor forces and damaging many other.

The Korean people rejoice at and warmly hail these great battle results achieved by the vigilant Vietnamese people.

The Korean people and all the progressive people in Asia and the world are standing firm today on the side of the Vietnamese people and all other Indochinese peoples in their heroic struggle against the U.S. imperialist aggressors.

The U.S. imperialists must discontinue at once all their criminal acts encroaching upon the sovereignty and security of the Democratic Republic of Vietnam and pull out of South Vietnam and all other areas of Indochina without delay, taking along their aggressor troops and the troops of their vassal states and puppets.

The Vietnamese people are firmly determined to deal a crushing retaliatory blow in the future, too, at all the acts of aggression of the U.S. imperialists infringing upon the inviolable sovereignty and security of their country.

If the U.S. imperialists recklessly persist in the acts of war expansion, remaining deaf to the vehement denunciation by the Vietnamese people and the world revolutionary people, they will face a defeat several times more ignominious than now and a miserable doom.
